

## Notice of Type II Development Review Application and Optional SEPA Determination of Non-Significance

The Clark County Department of Community Development has received an application for development review, as described below. Based on a review of the submitted application materials, the county expects to issue a **Determination of Non-Significance (DNS)** for the proposal allowed by state law and Clark County Code, Section 40.570.040(E) – Optional DNS Process. As lead agency, the county has determined that the requirements for environmental analysis, protection, and mitigation measures are adequately addressed in the development regulations and comprehensive plan adopted under Chapter 36.70A RCW, and in other applicable local, state, or federal laws and rules, as provided by RCW 43.21.240 and WAC 197-11-158. Our agency will not require any additional mitigation measures under SEPA. The proposal may include mitigation under applicable codes and the project review.

Comments received within the deadline will be considered in the review of the proposal. **Your response to this notice may be your only opportunity to comment on the environmental impacts of this proposal.** No additional comment period will be provided unless probable significant environmental impacts are identified during the review process, which would require additional study or special mitigation. The proposal may include mitigation under applicable codes and the project review process may incorporate or require mitigation measures regardless of whether an Environmental Impact Statement (EIS) is prepared.
